

The Aesthetic-Clinic Enquiry Checklist

Eight questions that turn “how much is laser?” into a consultation request your team can confirm in one call, how to answer price and results questions within Dubai Health Authority (DHA) rules, what to do with patient photos, and a weekly scorecard. Everything here works with the free WhatsApp Business app.

1. Why the first reply matters

Aesthetic enquiries arrive from Instagram, TikTok and Google in the evening and at weekends, and people often message several clinics at once. In Harvard Business Review's study of online sales leads, firms that contacted a lead within an hour were nearly seven times as likely to qualify it as firms that waited longer.

2. The 8-question intake

Ask these in the first reply. They give your coordinator what is needed to offer the right practitioner and consultation slot.

#	Ask	Why it matters
1	Which treatment or concern? (laser hair removal, injectables such as Botox or fillers, acne or pigmentation, facial or peel, other)	Routes to the right practitioner and appointment length.
2	Is this about a reaction to a recent treatment — swelling, pain, blistering, changes in skin colour or vision?	Goes to a person on the medical team immediately (section 5).
3	First visit or returning patient? (returning: file number or registered mobile)	New patients need registration, consultation and consent forms.
4	For laser: which areas? For skin concerns: how long has it been there?	Sets session length; helps the doctor prepare for the consultation.
5	Preferred branch, and two days or times that suit you	One confirmation message instead of three.
6	Practitioner gender preference, if any	Common request; avoids a rebooking.
7	Name, and confirmation the treatment is for an adult (18+) — or who it is for	DHA does not permit cosmetic Botox or fillers for under-18s (section 3).
8	Preferred language: English or Arabic	Assign the right staff member for the call-back.

Copy-paste intake message (WhatsApp)

Thank you for contacting [Clinic]! To arrange your consultation, please send: 1) the treatment or skin concern, 2) whether this is about a reaction to a recent treatment, 3) first visit or returning patient, 4) for laser, the areas, 5) preferred branch and two days/times, 6) any practitioner preference, 7) your name. Our team will confirm by [time]. If you have a severe reaction or a medical emergency, please call 998 or go to the nearest emergency department.

3. Answering “How much?” and “Will it work?” within DHA rules

Most first messages ask about price or results. The replies below keep your team (and any automated assistant) within the DHA rules that apply to non-surgical cosmetic procedures and medical advertising in Dubai.

Question	Safe reply pattern	Why
“How much is Botox / laser?”	Quote only prices from the clinic's approved, current price list. If a price depends on the assessment, say so and offer a consultation slot.	DHA requires a face-to-face consultation and assessment before any non-surgical cosmetic procedure (Standards v2.1, §11.1).
“Any offers this week?”	Only share offers that have internal sign-off and the required DHA permit; don't improvise discounts or bundles in chat.	DHA circular CIR-2026-00000144 (1 Sep 2026) targets inducement pricing such as flash discounts and bundle promotions.

Question	Safe reply pattern	Why
"Is it permanent / guaranteed?"	Explain that results vary and the doctor will discuss realistic expectations at the consultation.	The circular prohibits terms like "the best", "safest", "100 per cent" and "immediate results", and implying guaranteed results.
"Can the nurse do my filler?"	Injectables are booked with a physician. Laser can be performed by licensed staff under the treating physician's plan.	Botox and fillers are prescription-only and administered only by a trained, privileged licensed physician (§11.2); laser per §7.5.2.
"It's for my 16-year-old"	Cosmetic Botox and fillers can't be booked for under-18s; other concerns go to a doctor's consultation.	§11.5 prohibits cosmetic Botox and fillers for patients under 18.
"Can I book and pay now?"	Book the consultation; the treatment itself follows assessment and written consent.	Written informed consent before the procedure, reconfirmed on the day (§11.3).

Abu Dhabi (DoH) and the Northern Emirates (MOHAP) have their own rules. General information, not legal advice.

4. Patient photos, chats and marketing

- **Treat photos sent on WhatsApp as health data.** Under UAE Federal Law No. 2 of 2019, Article 13, health information related to health services in the UAE may not be stored, processed or transferred outside the UAE except in cases set by the health authorities (Ministerial Resolution No. 51 of 2021). Ask any chat or AI vendor where messages and images are stored before they read patient chats.
- **No marketing use without written consent.** Using a patient's pictures, videos, voice or statements in social media advertising needs written consent that states the purpose, platforms and timeframe; identities stay confidential unless explicitly authorised.
- **Before-and-after images must be real.** No editing, filters, misleading lighting or altered angles; same patient, same lens. Some surgical procedures may not use them at all.
- **Content filmed at your clinic is your responsibility** — including patients' or influencers' own videos. Promotional material needs Medical Director approval and the relevant DHA advertising permit before publishing.

Sources: as section 3; Federal Law No. 2 of 2019 (uaelegislation.gov.ae). General information, not legal advice.

5. Safety lines for every reply (staff or automated)

- **No diagnosis, no treatment advice in chat.** Replies give information and collect details; clinical questions go to a clinician.
- **Reactions go to a person at once.** Words like swelling, pain, blister, burn, bruising that is spreading, skin turning white or grey, or vision changes — and their Arabic equivalents — should alert the medical team immediately; the reply gives 998 and the nearest emergency department for anything severe, rather than offering the next slot.
- **No slot is confirmed automatically** unless it comes from your real booking system. A person confirms, or the system checks live availability.

6. Weekly scorecard (10 minutes every Monday)

Number	How to count it
Enquiries received	New WhatsApp / Instagram DM / web-form enquiries this week
Median first-reply time	Middle value of time from first message to first human or assistant reply
Replied within 1 hour	% of enquiries answered within 60 minutes, including evenings and weekends
Complete requests	% with treatment, visit type, preferred time and name after the first exchange
Consultations booked	Enquiries that became a booked consultation
Reactions escalated	Post-treatment messages handed to the medical team, and how fast

7. Want to see this working on your own enquiries?

Try our sample assistant for a fictional skin and laser clinic:

mountainai-ae.com/demo/dermatology-aesthetic-clinic-assistant.html. It asks the questions above in English or Arabic, never quotes unpublished prices or promises results, and flags reactions as urgent.

Free demo in 24 hours, built from your clinic's public website, private link. → **14-day pilot AED 1,500**, live on your WhatsApp Business number or website, credited in full if you continue. → **Full setup AED 7,500 + AED 1,250/month** (hosting, monitoring, monthly updates; Meta WhatsApp fees billed to you directly). We don't promise a number of bookings — the pilot report shows what actually happened.

Reply **DEMO** on WhatsApp +971 56 777 3366 or email info@mountainai-ae.com.
